

Grevillea Quartet

2019

Our vision

Grevillea Quartet is the first of its kind in Canberra with a mission to promote chamber music in the Australian Capital Territory. It is our vision to introduce Canberrans the best chamber works right here at your doorstep through professional musicians who live and work in the same community. As the population of ACT has been forecast to hit 421,000 by 2020, we believe Canberra will be in demand of high quality chamber music concerts as well as other artistic activities that are the source of inspiration, innovation and integration.

Inspiration • Innovation • Integration

Why are we different

Grevillea Quartet was created by four young professional musicians living in Canberra that are aspired to make a difference to our community through music. One of the most popular forms of music compositions, string quartet was considered by numerous giants and aspiring composers to be a true test to musical mastery. The prestigious art form speaks the language that is unique to each composer, and each work encapsulates the life, the philosophy, and the world of musical logic from that particular composer. Through our well-prepared interpretation, Grevillea Quartet would bring each of the historical masterpieces to life to the Canberra audience, as well as presenting living composers through commissioning new music. We strive to become the ambassador for inspiration in the Australian Capital, and we believe by promoting chamber music we could bring our community closer to each other more than ever.

We need your support to help us achieve our mission today.

Support Grevillea Quartet

Does your organisation believe in the power of inspiration? Does your company want to see an innovative future of Canberra as much as we do? Do you believe an integrated society is the foundation for prosperity and sustainable economy? If you say yes to any of these questions, support Grevillea Quartet to build a better future for Canberra. Become a sponsor or a partner with Grevillea Quartet today.
